MAY ISSUE BONDS FOR PUBLIC WORK AT ANY TIME, NOW

Special Assessment and Tax District Laws Are Operative at Once.

City Solicitor Explains Purpose and Meaning.

STREETS AND SEWERS BENEFIT.

Senate bill 121, one of the "improvement district bills" introduced by Senator Eaton, has been approved by the governor, and if its companion bill, No. 246, is approved, or becomes a law March 25 without the governor's signature, Paducah may proceed with sewer and street and sidewalk work this year, as the bills carry an emergency clause, making them operative as soon as they are signed by the governor or become laws without his signature.

In brief these bills permit the general council to specify improvement districts, within which certain improvements are to be made, either in the way of permanent streets, laying sewers or constructing sidewalks, and assessing the cost against property holders within the district. They also permit the general council to issue ten year bonds to cover the cost, so that the contractors can receive cash as the work progresses, the bonded debt being apportioned among the property holders and their assessments made upon their property payable to the city in ten annual installments, all of which will cut down the cost of the improvements and extend the time of payment.

City Solicitor Campbell, who prepared the measures for the legislature, modeling them after the best laws of a similar nature in operation in other states, prepared the following explanation of the laws:

Mr. Campbell Explains.
The recent acts of the legislature in which Paducah is interested, officially known as "Senate bills 121 and 246," but publicly known as "public improvement district bills," is quite a radical change from the present law governing the construction of streets, sewers and sidewalks, both as to the requirements of the city and as to the requirements of the holders of property abutting the improvement.

In the first place they provide that where a street, avenue or alley has been permitted to remain open to the unrestricted use of the public for five consecutive years, then the city shall have the right to take possession of such street, avenue or alley without any further dedication thereof, and shall have been considered as dedicated to the city, without any formal dedication.

They provide that the costs of the construction of the streets, avenues or other public ways, including the sidewalks, curbing and guttering, shall be made at the exclusive cost of the abutting property owner, whether original or re-improved, excepting, however, that where the proposed improvement exceeds fifty per cent of the value of the property abutting said improvement, then the city shall pay the excess over fifty per cent of the value.

It becomes also the duty of the abutting property holder, if the ten year bond plan is not adopted for said improvement, to pay the special tax levied for the payment of such improvement to the city treasurer within thirty days after same becomes due, and any property holder who fails to pay this special tax within that time, is subject to a penalty of ten per cent to be added to his special tax bill, which shall be a lien upon the property of equal dignity with the original special tax lien. The old method of paying off the estimates issued by the city and placed in the hands of the contractors for collection is done away with, and under the present law the contractor has nothing to do with the collection of the special tax, as it will all be done through the city treasurer's office, in the same manner as the ordinary tax of the city.

Method of Procedure.
Before, however, the city can make the improvement of any street, alley, sidewalk or sewer, it becomes the duty of the general council to adopt a resolution designating the street, sidewalk or sewer proposed to be improved, and setting out in general terms the character and extent of the proposed improvement, and this resolution must be published in the official newspaper in the city at least five days before the ordinance providing for the improvements is passed by either board of the general council.

Big Four Will Build Branch Line Into Metropolis From Stone Fort, According to Contractors' Word

Twenty Miles Due South to Reach Ohio River Crossing is Purpose and Bids Will be Opened April 1.

Metropolis, Ill., March 23. (Special.)—Contractors who have made this city their headquarters, since the construction of the Herlin Southern branch of the Burlington from Herlin to Metropolis began, stated today that the Big Four will open bids April 1 for the construction of a line 20 miles long from Stone Fort, Ill., near Parker, the junction with the Illinois Central, to Metropolis. The line will be due north and south. Chicago is responsible for a story that the Big Four will build down from Mt. Carmel, Ill., to Evansville, Ind., to connect with the Louisville & Nashville for a route to Florida and New Orleans; but the contractors say this is authentic about the line from Stone Fort, and it is probable that the road intends to get in on the Metropolis bridge proposition and also feed the Nashville, Chattanooga & St. Louis route south.

Big Four to Have Short Line South.

Chicago, March 23.—The Big Four railroad, which is a part of the New York Central lines, is planning to become an active competitor for business between Chicago and southeastern and Florida points. The company is constructing 31 miles of railroad from Mount Carmel to Evansville, Ind. This will make it the shortest line between Chicago and Florida. The strongest line in connection with the Florida business is now said to be the Eastern Illinois, which reaches Evansville over the Evansville and Terre Haute road. Connection will be made by the Big Four at Evansville with the Louisville & Nashville and the southern railroads, and it is expected that close traffic relations will be entered into between the two roads.

WITNESS IN JOHNSON CASE DISAPPEARS

New York March 23.—The trial of Jack Johnson was continued today on account of the non-appearance of Norman Pinder a prosecuting witness. Judge Mulqueen will have a grand jury investigate the disappearance of Pinder.

Johnson was remanded to jail in default of \$5,000 bail. He faces the possibility of a charge of splitting the complainant out of the jurisdiction of the court. The grand jury is requested to take up the case.

Saylor Jury Chosen

Watseka, Ill., March 23.—The jury in the Saylor murder trial was completed at 11:15 a. m. One jurymen collapsed immediately after the opening of court.

Tom Johnson Abroad

New York, March 23.—Tom Johnson, former mayor of Cleveland, sailed for Europe today in search of health.

Killing in Breathitt.

Jackson, Ky., March 23. (Special.)—Huddy Strong was shot from ambush and fatally wounded near Callahan's home at Crockettville.

Great Man Reflects Greatness of Nation

Rome, March 23.—Colonel Roosevelt will not be asked to speak at the Methodist college when he visits here. This will evade the embarrassment, such as occurred for former Vice-President Fairbanks, when the audience with the pope was cancelled. King Victor is to receive Roosevelt at a dinner in his honor. Queen Helena is planning a serial function in honor of Mrs. Roosevelt.

Greatest Man in the World.

MEN! TO ARMS!
Chicago, March 23.—"The American married woman is a coward, a liar and a thief," declared Dr. Helen Kellogg in an address before the Kilo association. She said woman resorts to subterfuge and cheap coquetry for the price of a new gown. She considers herself an article paid for at the altar by her husband with a promise of lifelong support. Dr. Kellogg created a storm of protest among Chicago club women. She said the spirit of the times is in Chicago's rival record for London with 50,000 deserted wives.

WHARFBOAT FOR FERRY LANDING

COMPANY PLACES ORDER FOR ONE—TOWBOATS CHANGE HANDS.

A wharfboat will be constructed by the Paducah and Illinois Ferry company for the new ferryboat "G. W. Robertson," which is now under construction at the Helena (Ark.) shipyard, making the first wharfboat Paducah has ever had to accommodate the ferry trade.

Secretary Charles Robertson, of the ferry company, left this morning for Mount City, Ill., where he will ask for bids on a modern and up-to-date wharfboat. He will also visit this week and the ship building concerns at Paducah, Brookport and Mount City will send in bids. The wharfboat will be 150 feet long and 30 feet wide and provided with a waiting room and other conveniences. It will be covered by a roof and stationed at the old ferry landing at the foot of Kentucky avenue. The approximate cost will be \$5,000.

Mr. Robertson has received word from President John E. Rollins, of the ferry company, from Helena, that work is progressing rapidly on the new ferryboat. With the fall of the river here the company has torn up the old dock landing, consisting of two small floats.

The Charles Turner Sold.

A deal has been closed wherein H. Ramphendall, Jr., of the Metropolis State Works, bought the towboat Charles Turner, owned by the Illinois Ferry company. The consideration was \$5,500 and the towboat Nellie thrown in. The Nellie has a capacity of 45 tons and is 80 feet long with an 18-foot beam. She will be overhauled by the new owners. The Ramphendall company will use the Turner to tow lumber from the Tennessee river. The Turner is 102 feet in length and 18 feet wide with a 3 foot hold. She has a capacity of 75 tons.

Would Extradite Packers.

Trenton, N. J., March 23.—Formal application was made this afternoon by Prosecutor Garven to Governor Fort for extradition papers in the cases of officers of the National Packing company. A majority of the men indicted, for whom extradition was sought, have homes in Chicago.

Luxor, March 23.—Roosevelt spent the morning preparing his European speeches. He addressed the Ameer Presbyterian girls' mission. He will leave for Cairo tonight.

Pressmen Organize

Paducah pressmen have organized a union and have received charter No. 244. There are fifteen members of the new union, and officers have been elected as follows: Joseph Holsley, president; Will Craig, vice president; Tom Roberts, secretary; Thomas Helms, recording secretary; Jesse Evans, sergeant-at-arms.

REPUBLICAN AND DEMOCRAT VIEWS ON BOSTON RESULT

Later See Assurances of Victory and Control of Next House.

Former Think an Early Scare is Beneficial.

FOREWARNED AND FOREARMED

Washington, March 23.—Democrats are delighted with the result of yesterday's election in Massachusetts. They predict it means a Democratic house at the next session. Champ Clarke declares the result is from the same causes operating over the entire country, the repudiation of the tariff and upholding the insurgent movement.

Republican progressive leaders also take an optimistic view of the situation. They believe that this defeat of a reactionary Republican of the old school in conservative New England, coupled with the successful insurgent move in the house by the defeat of Cannon's rules committee, will lighten the Republican majority into active co-operation with the president and the insurgents in enacting measures in conformity with Republican platform pledges. They believe that the president's reassurance in his recent speeches that he favors further revision of the tariff as soon as the tariff commission concludes its study of the subject during the next two years, and the possible conclusion of a reciprocity agreement with Canada, will take all the danger out of the tariff agitation. The proximity of congressional elections and the fact that state legislatures will choose 30 senators soon place the president in a strong position; because he has three years in which to make good, while the members of congress must make haste to square their conduct with national platform pledges. The president regards the carrying out of those pledges as certain to justify his claim of good faith with the nation, since they represent the issues on which he won a victory at the last presidential election.

A Political Miracle.
The "Old Colony" section, one of the Republican strongholds, placed Eugene S. Foss, of Boston, one of the country's leading exponents of reciprocity with Canada, in the congressional seat of William Lovering. Foss accomplished what is regarded as almost a political miracle, turning the Republican plurality of 14,250 into a Democratic victory of 5,640. The vote was: Foss, Democrat, 14,980; Buchanan, Republican, 9,340. It was the most overwhelming defeat the Republicans have met in Massachusetts since Governor Bates was overthrown by William Douglas six years ago.

Foss stamped the Fourteenth district on national questions.

ROY L. CULLEY & CO.

GET THE CONTRACT TO FURNISH POLICE UNIFORMS.

The Summer Outfits Will be the Usual Short Blue Light Weights.

Roy L. Culley and Company were awarded the contract yesterday for furnishing the summer uniforms for the police, thirty in all. The committee appointed by the patrolmen selected the cloths exhibited by Culley's as the best, and naturally the Messrs. Culley and Company feel proud of the order as another evidence of the high character of the garments sold by them. The new suits will be the half lined, summer weights of blue flannel.

Madraz Aggressive

Bluefields, March 23.—A force of 2,000 soldiers of Madraz's army is moving on Bluefields. The town is in a panic of surprise and every effort is being made to gather a force to resist the attack. Estrada sympathizers fear defeat at Rama on account of the scattered condition of Estrada's army. Madraz's army will reach Rama in two or three days.

ARMY OFFICERS' WIFE IS KILLED IN AN AUTO

Washington, March 23.—In an auto accident in North Washington today, Mrs. H. J. Slocum, wife of Major Slocum, was killed. General Franklin Bell, chief of Staff of the army, was slightly injured. The auto was struck by an interurban car and entirely demolished. Mrs. Slocum died fifteen minutes after the collision.

It is generally supposed the cause of the accident was that Ward, the chauffeur, attempted to cross ahead of the car. Mrs. Slocum never recovered consciousness. General Bell was removed to his hotel at Ft. Meyer. The extent of his injuries are not known, but are not serious. The chauffeur was uninjured. The motorman, conductor and chauffeur were arrested.

Half Million Loss of Life Every Year in America Through Lack of Co-operation Between States

Startling Figures Produced by Senator Owen, Advocating Department of Health—Situation in House.

Washington, March 23.—The people of the United States suffer an annual loss of 500,000 lives, which could be saved by co-operation between federal and state governments. This statement was made in the senate this afternoon by Senator Owen in support of the bill to create a department of health. Three million people are ill from preventable causes and one million of them are working people, losing an average of 700 days annually. The loss by sickness is \$500,000,000 without extra charges, such as food, etc.

The Rules Committee.
Washington, March 23.—Through the maze of speculation regarding the probable personnel of the enlarged rules committee of the house was developed a slate for Republican membership in that body.

Several conferences were held, and as a result it is understood that the members of the committee may be selected on a geographical basis. The tentative plan is divided into groups out of which the leaders expect one each to be chosen. The groups follow:

Dalzell, of Pennsylvania.
Smith, of Iowa.
McCall or Lawrence, of Massachusetts, or J. Sloat Fassett, of New York.

Boutell, of Illinois, or Longworth, of Ohio.
Young of Michigan, or Stevens, of Minnesota.

Smith, of California, or Hawley, of Oregon, or Howell, of Utah.
From this slate the six Republican members of the committee may be selected at the Republican caucus. This list of probable selections does not include a single insurgent Republican.

A member of the house organization said the organization desired it to be understood that it was taking no part in the selection of the new committee.

Speaker Cannon is not taking any leading or dominating part in the proceedings of the house, nor is he talking for publication about his attitude on the subject. From a source very near the speaker, it was learned that he felt that the majority, which had taken control of things last Saturday, was now responsible for legislative matters and that it might be poor taste for him to make suggestions or to attempt to have anything to do with the directing of affairs.

Representative Dickinson, of Indiana, is prominently mentioned as one of the Democratic members of the rules committee.

All shades of party politics engaged in informal individual conferences over the situation in the house. Some of the Democrats commended the attitude of the insurgents and expressed their personal regard for the speaker, though insistent upon the course mapped out by the voting of last Saturday.

No Disrespect to Cannon.

"I do not base my support of the Burleson resolution, declaring the speaker's chair vacant, on any personal ill-feeling toward the speaker," said Representative Sims, of Tennessee. "I have never used a word of disrespect toward him in my life. I approve the position of the insurgents who voted against the Burleson resolution on the high ground of reforming the house procedure. Instead of showing personal antagonism to the present speaker, I voted for the resolution on its intrinsic merits—not on account of the particular occupant of the chair."

Will Sell in Cuba.

At a meeting of the directors of the E. E. Sutherland Medicine company yesterday afternoon it was decided to embrace the island of Cuba in the territory of the sales department. For the purpose of arranging a distributing point and the introduction of the remedies manufactured by the company in the little republic, Mr. H. R. Lindsey, the general manager will leave within two weeks. The company's business is increasing rapidly with salesmen in all parts of the United States, while the business with foreign companies is good. In Mexico the company has a branch establishment.

PITTSBURGHERS HASTENING TO CONFESS GRAFT

More Councilmen Tell About Bank Transactions and Are Immune.

New York Probe is Nearing the End.

PACKERS TO BE EXTRADITED.

Pittsburgh, March 23.—There was a resume of the graft probe and many more confessions were made implicating bankers. Others are expected.

Former Councilman Wason testified before the grand jury this morning and six more councilmen confessed: William Brand, Frank A. Gould, D. K. Barton, William Schreiber, H. B. Miller and John H. Keane received amounts varying from \$81.10 to \$250 while members of the city council.

New York Probe.
New York, March 23.—The big bills paid year after year by fire insurance companies under the comprehensive head of legal expenses, with occasional incidents, were again under examination when Superintendent of Insurance Hotchkiss continued the investigation he is conducting in connection with legislation at Albany.

Mr. Hotchkiss was anxious to find out what the circumstances were which led the board of fire underwriters in 1904 to write a letter in which the statement was made that a bill affecting reinsurance had been "bought through the senate" that year.

The superintendent, too, announced his intention to follow further numerous promising trails uncovered. Some of these, he thought, might result in bringing to light the facts he is seeking regarding the expenditure of tens of thousands of dollars, which it now appears the companies contributed in 1901 and several successive years to combat unfavorable legislation and help along bills in the passage of which they were interested.

A Cancelled Check.
The reinsurance bill of 1904, which is still a law, was the object of especial solicitude on the part of the examiner.

Mr. Hotchkiss produced a cancelled check for \$100, paid on October 25, 1909, to George P. Sheldon. The money was paid as "traveling expenses" in connection with Sheldon's work at Albany, by the Home Fire Insurance company.

Mr. Hotchkiss forced E. H. A. Corra, vice-president of the Home Fire Insurance company, to admit that his company made an erroneous statement in its annual report for 1904 to the state insurance department. It was brought out that this company paid \$2,500 to Mr. Sheldon on September 27, 1904. It was shown that this payment was entered as having been made for "state tax."

Mr. Corra said this was a clerical error.

George F. Seward, president of the Fidelity Casualty company, testified that "for years insurance and casualty companies have been harassed in every part of the country by insurance departments and by 'strike bills.'"

He was summoned to Sing Sing prison several years ago to meet a man who wanted \$10,000 for "Tim Sullivan" to delay passage of a bill adversely affecting casualty companies. Witness did not know whether this was the present Senator Sullivan, but gave the man at Sing Sing a telegram to send Sullivan, saying:

"Mr. Seward says you can go to—"

Mr. Seward said he was asked to pay \$10,000 to have the casualty bill killed in 1891 or 1892 during the Governor Flowers administration.

Later Mr. Seward testified that the "Tim Sullivan" whom a man named Brown Brown (the man at Sing Sing) had represented "would put off" the bill for \$10,000 was "Big Tim" Sullivan.

"You mean 'Big Tim' Sullivan, the present senator?" asked Mr. Hotchkiss.

"I mean 'Big Tim,'" he said. "I didn't know there was any other. He was persistently active."

The man at Sing Sing did not, as far as Mr. Seward knew, have any connection with the prison.

Mr. Seward spoke of the "old days" when, if he went to Albany and tried to speak to members of the assembly to advocate a bill, some of them would say, "Is there any money in it?"

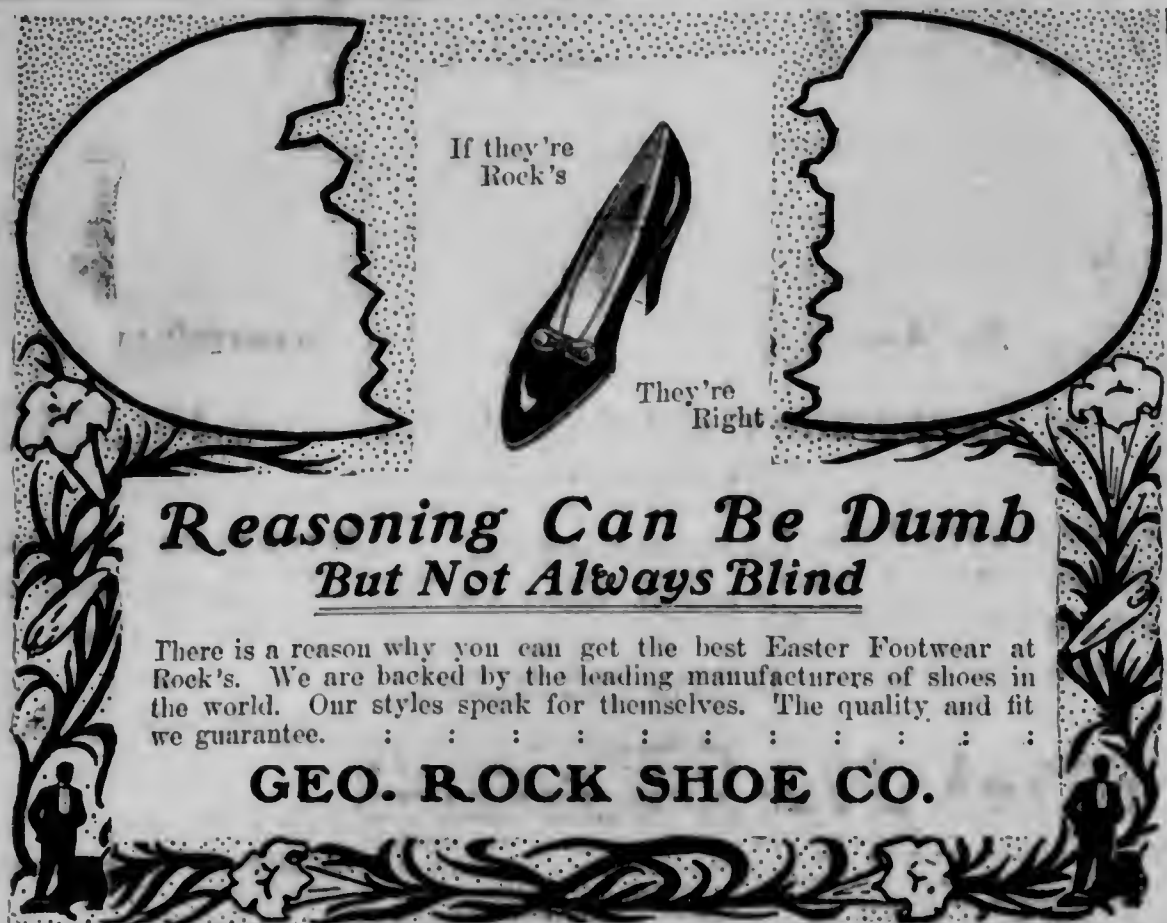

Once, he said, a legislator named Goldberg, from Buffalo, said to him regarding an insurance bill: "I think there's money in that bill and I propose to have some."

State Senator Thomas F. Grady, who introduced the reinsurance bill in the 1904 legislature, vigorously combated the assertion that money had been used to get it through the legislature.

CUT OUT HIGH HEEL SHOES

Pittsburg School Authorities Put Ban on French Heels.

Pittsburg, Pa., March 23.—The French heel shoe apparently is an object of scorn to the high school committee of the Board of School Controllers of the North Side, and the ban has been put upon it. This action was brought about by the appearance of students in the physical

education class in the little slim-beeled shoes that make them appear to be walking on pegs. The superintendent of the High School has been commanded to force this order, under the penalty of the entire High School forfeiting its annual entertainment in May, one of the red-letter days of the High School course.

WAR IS ENDED IN THE HOUSE

INSURGENTS AND REGULARS ANXIOUS FOR HARMONY.

Democrats Are Guessing and Members of Minority Do Not Seem to Be So Pleased.

THEIR AMMUNITION IS GONE

Washington, March 23.—The more the historical work in the house of representatives, when Speaker Cannon was taken off the committee on rules, is studied and analyzed, the more public men at Washington are impressed with the belief that the real victor is the Republican party.

The fight, to use an expression of Speaker Cannon, "had to be," and now that it is over there is a clearing of the atmosphere. Barring the angry outburst of Speaker Cannon at the Illinois society banquet, which there is good reason to believe he now regrets, the whole tendency is toward a getting together of the Republicans of the house. The insurgents are satisfied because they accomplished everything they started out to do. The speaker's friends are pleased that he received what they consider to be a vote of confidence when the house refused to depose him.

What Insurgents Did.

That the insurgents have really accomplished a great thing in the direction of bringing the party together and putting it in shape for the fall elections is the opinion of students of the situation, who believe that the next few weeks will witness long advances in the direction of harmony. The harmony spirit showed strong development, both among the "regulars" and the "insurgents." Even the speaker seemed to yield to the better feeling that pervaded the capital city, for he agreed to summon Representative Augustus P. Gardner, of Massachusetts, one of the insurgent leaders, to a conference, when the whole situation is to be talked over in the hope of reaching a better understanding.

The insurgent leaders are showing their magnanimity in many ways, the most striking of which is their willingness that the entire Republican membership of the new committee on rules may be composed of "regulars." They do not ask for representation on the committee.

"We have been contending for a principle," said Representative Norris, who started the fight, "and now that we have established that principle we are content."

Even Murdock Satisfied. Representative Murdock also expresses his most positive opposition to any effort to secure the placing of an insurgent on the rules committee. He insists that the insurgents have won their fight for a principle and are content. Both Norris and Murdock say that insurgency is at an end for this session, and that they intend to use their influence for party union and harmony.

The Democratic opinion at the capital is that the Democrats have come out at the little end of the horn, so to speak, in the events of the last week. Their biggest hope—the bogie of Cannonism—has largely been taken away from them, and the

Democratic prospects for carrying the next house have been given a serious setback. The Democratic representatives were forced into a position by the clever strategy of the insurgents, where they were obliged to help put through the insurgent program, though nearly all of them now feel that the Democratic party has been worsted.

Blow for Reactionaries.

The most impressive lesson taught by the recent events is that the progressive sentiment of the country has at last reached Washington and has dealt a telling blow to the whole fabric of the reactionary organization that has heretofore shaped legislation almost to suit the will of Senator Aldrich and Speaker Cannon.

It is probable that neither the Republicans nor the Democrats will be in a hurry to caucus for the selection of the members of the new rules committee. The disposition is to go slow and let the skies clear. Champ Clark, Representative Underwood and Representative Fitzgerald probably will be put on the Democratic wing of the committee.

A common theme of speculation is the effect that the readjustment in the house probably will have on the legislative program. Victor Murdock and other insurgents express the view that legislation will be accelerated, rather than impeded. For months under the system just overthrown the rules committee has been afraid to bring in any rules. There was imminent danger that the introduction of a rule would bring about the revolution that finally did occur. No such handicap will impede the new rules committee. The Republican membership of the house is in a mood to accept whatever orders it may see fit to bring in to expedite business.

"FAKE MEDICINES" are fast being eliminated from the market by the action of the Pure Food and Drug Law, but there are many dependable advertised medicines, such as the God Liver and Iron preparation called VINCOL, constantly prescribed by reputable physicians who are successful and broad enough to recognize the value of such a preparation. This combination of two world-famous tonics builds up the system when run-down by sickness or age or age quicker than any other means.

A Point for Willie.

A Capitol Hill woman went out in the garage back of her home yesterday afternoon and found her 10-year-old son playing cards for pennies with a neighbor boy.

"Why, Willie," she said, "what are you doing—gambling?"

"We're just playing cards with that new deck you won over at Mrs. Mason's playin' bridge last week," replied the boy.

The woman picked up the cards and went back into the house. She had nothing to say.—Denver Post.

CHESS TEAM FROM HIGH SCHOOL

CLOSE GAMES DECIDE BASKETBALL CHAMPIONSHIP.

It Was Hard Fought From Start to the Finish of Both Halves.

DISPUTED DECISION IS MADE

Teams.	W.	L.	Pts.
C. C. & W.	10	1	.909
High School	8	3	.728
D. A. D.	7	4	.636
Elks	7	4	.636
J. & P.	3	8	.273
Indians	1	10	.091

One disputed basket at a critical moment last night in the championship struggle of the city basketball league probably will result in the victory of the C. C. & W. team over the High school quintet being protested. It was one of the closest games of the season, the final score ending 21 to 19 in favor of the Chess team, as the officials ruled. The contest for last place was a victory for the Light and Power team, defeating the Indians by a score of 32 to 19.

The game of the evening was the contest for the championship. C. C. & W. rooters were confident that the maroon and white players could win and establish a clear title to the cup, while the High school fans were just as confident that the students could win and tie the standing in the percentage column. The balcony was crowded to its capacity while along the walls the enthusiasts were lined.

The game opened with both teams playing fast ball. Throughout the half the score was close, as the Chess team would hoop a basket and then the High school players would toss a goal. At the close of the half the score was 9 to 8 in favor of the Chess team. In the second half the Chess team came back strong, and in a few minutes had a lead of six points. It looked like a walkaway, but High school settled down and threw enough baskets to be one point behind.

In the last minute of play Hughes for High school got the ball. He tossed it to Browning, who threw a basket, which would have put High school in the lead by a score of 21 to 20. Lydon, who was one of the umpires, said Hughes failed to dribble the ball and penalized High school for running and the basket failed to count. Puryear tossed the foul, adding another point to the C. C. & W. score. Goodman, the second umpire, contended that Hughes dribbled the ball, and the basket was legal, thus giving ground for much discussion.

The C. C. & W. players and rooters were happy over the victory and the winning of the cup, while the High school fans were sore over the decision in the disputed play. Had High school won the game another contest would have been necessary to settle the pennant race.

The first game was between the Light and Power team and the Indians. From the start the L. & P. team had the lead, and at the close of the first half the score was 10 to 7. In the final half the tactics were increased to 32 to 19.

The teams lined up: R. Fisher, center; Puryear and Slight, forwards; Singleton and St. John, guards.

High School—Kling, center; Browning and Hughes, forwards; Craig and Sills, guards.

L. & P.—Hodge, center; Elliott and Simpson, forwards; Gardner and Reysburn, guards.

Indians—Cochran, center; Shelton and G. Elliott, forwards; Hatfield and Mulvih, guards. The officials were: Hodge referee and Lydon and Goodman umpires.

Goals were tossed by: Puryear, 1; Sights, 4; Fisher, 2; Kling, 2; Hughes, 2; Browning, 2; Craig, 1; Cochran, 4; G. Elliott, 4; Shelton, 1; Hodge, 6; R. Elliott, 8; Reysburn, 4. Fouls—Puryear, 5; Sills, 5; Hatfield, 1.

JERE LILLIS OUT AGAIN.

Able to Leave Home for First Time Since Cudaly's Attack.

Kansas City, Mo., March 23.—Jero Lillis, president of the Western Exchange bank, was able to leave his home for the first time since he was attacked at the Cudahy home here two weeks ago by J. P. Cudaly, the Barker, and badly cut and pummeled.

Mr. Lillis, whose wounds appeared to have healed, rode down town in his motor car. He declined to be interviewed.

TRAVELING SALESMAN CO. SPENDS WEEK IN THE CITY

The last week of Lent, known to the thespians as "red week," has resulted in "The Traveling Salesman" spending a week in Paducah. The company has arrived here from Evansville, but many of the members of the troupe will take advantage of the week to make a run home. The company will play in Paducah next Monday night and will resume the tour.

IN JUST FIVE MONTHS

WYETH'S SAGE AND SULPHUR HAIR REMEDY

Grew a Full Growth of Hair on a Bald Head

Here's the Proof

For two or three years my hair had been falling out and getting quite thin, until the top of my head was entirely bald. About four months ago I commenced using Sage and Sulphur. The first bottle seemed to do some good and I kept using it regularly, until now I have used four bottles. The whole top of my head is now fully covered with hair and it keeps coming in thicker. I shall keep on using it a while longer, as I notice a constant improvement.

The birthright of every man, woman and child—a full healthy head of hair. If your hair is falling, if it is full of dandruff, or if it is faded or turning gray, it is diseased and should be looked after without delay.

WYETH'S SAGE AND SULPHUR HAIR REMEDY, a true Hair Tonic and Restorer, removes dandruff in a few days, stops hair falling in one week, and starts a new growth in a month.

Does not soil the skin nor injure the hair; but it is an ideal hair dressing that will restore faded and gray hair to natural color and keep the hair soft and glossy.

CHRISTIAN SCIENCE PROTESTS

Over Question Can Parents Refuse Treatment for Children.

La Junta, Col., March 23.—Judge R. W. McDaniel, of the Otero county court, rendered his decision in the Messenger case, which attracted national attention because it involved the right of parents to reject medical treatment for their children.

Judge McDaniel held that Mr. and Mrs. H. D. Messenger had been guilty of "neglect" in failing to call a physician to attend three children after three other children of the family had died.

The language of the decision indicates that an appeal is considered certain, as it is understood that the followers of Mrs. Mary Baker G. Eddy will carry the case, if necessary.

to the highest court in the land to have a final decision regarding the local status of Christian Science healing.

Live Stock.

Louisville, March 23.—The receipts of hogs were exceptionally light, only 378 head; for the two days, 2,369. The market was slow in opening and prices dropped a dime on top hogs and roughs, while lights and pigs sold steady. Selected 165 pounds and up, selling at \$11; 150 to 165 pounds, \$10; pigs ranged from \$8.80 for light pigs to \$10 for heavy pigs; roughs, \$10.30 down. The pigs were well cleared and the market closed steady.
 Cattle—Receipts, 50 head; for the two days, 1,099 head. The attendance of buyers was light, the demand rather narrow and the market quiet yet firm on anything in the butcher cattle line, as the supply was hardly up to the demand. Fairly good inquiry for feeders and stockers. Bulls strong, canners firm, milk cows unchanged. No heavy cattle here. Feeding steady.
 Calves—Receipts, 100; for the two days, 220 head. The market ruled firm on choice veals at 8 1/2 to 8 3/4 c. Some fancy higher. Medium, 5 1/2 to 7 c; common, 2 1/2 to 5 1/2 c.
 Sheep and lambs—Receipts light; for the two days, 574. The market

ruled quiet yet firm. Good fat sheep quotations at 7 1/2 c down. Good fall lambs, 8 1/2 c down. Common sheep and lambs slow sale.
 St. Louis, March 23.—Cattle—Receipts 5,500, including 2,000 Texans; market steady; native beef steers, \$6.60 to \$8.50; cows and heifers, \$3.50 to \$7.50; stockers and feeders, \$4.30 to \$6.30; Texas and Indian steers, \$5.40 to \$8; cows and heifers, \$3.40 to \$7; calves in carload lots, \$3.50 to \$10. Hogs—Receipts 7,500; market lower; pigs and lights, \$7.50 to \$10.75; packers, \$10.50 to \$10.80; butchers and best heavy, \$10.60 to \$10.90.
 Sheep—Receipts, 1,500; market steady; native mottos, \$5 to \$8.50; lambs, \$7.25 to \$9.75.

GROCER GIVES SENATE COMMITTEE INFORMATION.

People Are Better Able to Pay Debts Than Formerly—Denies Agreement Among Grocers.

CAUSE HIGH COST OF LIVING

Washington, March 23.—One of the reasons for the higher cost of living has been a demand for much better goods, according to John A. Green, of Cleveland, O., secretary of the National Association of Retail

Grocers, who resumed the stand before the senate investigating committee. He said that the average grocery bill, except for butter, eggs and meats, is as low, and in some cases lower, than a number of years ago.

The witness declared people are better able to pay their debts now than in former years, and that during the past two years of his business he had lost \$9 one year and \$27 the other in bad debts, out of a yearly business of \$18,000.

Mr. Green said the average grocery bill of a family of five in Cleveland was \$59 a month. He said wages had increased in the last ten years and that it was a hard matter to get help. He denied that his association, at

any of its meetings, discussed prices. Senator Smoot asked how he accounted for the fact that the retail grocers of the United States sold certain goods at the same prices. He answered by saying that certain goods which sold for, say 50 cents a dozen, the profits which each grocer would add to the cost would be about the same.

The committee adjourned indefinitely.
 Mr. Tucker (having served the others)—Well, Tommy, what part of the chicken will you have?
 Tommy—Why, paw, you know I always take the back, when there's company.—Chicago Tribune.

The Importance, to You, of Our Splendid Store Service

We believe most sincerely that the buying public will welcome the news from a Furniture and House Furnishing establishment of the sort that we conduct.

We realize fully that our existence, our prosperity, depends entirely upon our ability to meet your requirements in every particular—and to this end we labor unceasingly.

We propose to make this store a dependable store in every sense of the word. To this end we have searched every nook and corner of the greatest manufacturing emporiums of the land, that we might secure for your benefit only such merchandise as we know to be absolutely dependable.

We propose to ask a fair and just profit, in fact, only such a profit as we would feel ourselves justified in paying were you the merchant and we the buyers.

In our employ will be only such persons as have proven themselves worthy of connection with such an institution—people who know how to be courteous, and knowing, act accordingly—our salespeople are thoroughly conversant with every detail of the furniture and house furnishing business, and will give you intelligent and painstaking assistance in making your purchases.

The RHODES-BURFORD store is a truly Paducah store; a store conducted solely in interests of better supplying the furniture and house furnishing needs of the people of Paducah.

We want you to make it your home store—because your every want will be as carefully tended to as if we were ourselves the attended.

Daily Thought.

The secret a woman can find out may become her secret sorrow.

Because a majority of Pittsburgh's common councilmen have taken advantage of the immunity offer for confessions of bribery, it will be impossible to secure a quorum of that body until their vacancies are filled. Pittsburgh is unique among the larger cities of the country in regard to her councilmen—they have confessed.

There are 92,000,000 germs on a dollar bill, ten times as many as on a ten dollar bill. It is a shame how carelessly people will expose themselves. It is now believed that the itching palm is caused by handling small bills.

THE DISCIPLINE OF RESPONSIBILITY.

The better discipline of the majority party in congress has turned the apparent embarrassment of the insurgent movement into an advantage; but that Democratic congressman, who said the most foolish thing he and his colleagues ever did was to join the insurgents in changing the rules of congress so as to break the speaker's power, has an odd conception of the minority's duty in government. Evidently he looks at it purely from a partisan point of view. In that light he is right; the chief point of attack of the minority backed by the press of the country was the authority of the speaker through his rules committee to absolutely control legislation. When that authority was taken from him, the friction between what are known as insurgent and regular Republicans was removed, and the Democrats can no longer cry out against the tyrannical rule of the speaker. The victory of the insurgents will have its effect in the middle western states, whence most of them hail, and where the progressive sentiment is strongest in the Republican party. It should aid the insurgents in winning victories in the Republican primaries this summer. It will also encourage progressives in other sections, and thoroughly fasten the progressive policy on the Republican organization are another general election comes around. The last thing the insurgents could wish would be representation on the rules committee. If they have a man on it, and they object to the rules, they will be estopped from overriding the committee's recommendations; whereas, if only regulars are represented on it, the regulars will be constantly in fear of further insurgency and that will have a chastening effect on the committee's action.

As for the minority, in joining the Republican insurgents it performed the true service of the minority to the country by holding the majority in check and forcing it to do right. When Joe Cannon used Democratic votes to defeat the insurgents before, and when a tariff on hides and sugar tempted Democrats to support high tariff provisions in the Payne bill, the minority was not performing its function, but trafficking for political favor. The Democratic congressman is wrong in his observations. Causing trouble for the majority and taking advantage of the majority's weakness will not win a national vic-

tory for his party. The country will not elect a Democrat for what a Republican can't do, but for what a Democrat can do. Positive, not negative, forces count in politics as in everything else. Progressive legislation is demanded, not obstructive tactics. It is difficult at best for a party, whose leaders have long been heading a minority in opposition to the government, to cease opposing when the opportunity comes and begin doing. Cleveland found his party unable to realize its responsibility to the country in time to save itself from defeat.

Democracy is undisciplined, exclaim its defenders, as if that were a sure sign of independence of thought and action; but it is undisciplined because it has not been in power long enough in fifty years to feel any responsibility. Military cadets may wheel and turn and deploy and go through the manual of arms with beautiful precision; but for real discipline study the veteran, who by experience understands his own dependence on the corps and the corps' dependence on him, and the responsibility of both to the cause for which they are fighting. That accounts for the discipline of the majority. Every Republican congressman, who will be up for re-election next fall, knows that his success depends on the judgment the people pass upon congress as a whole. Consequently, he may be expected to lend his best intellectual efforts to national problems, and subordinate personal desires to the general good. That improves the quality of the representation individually and collectively. Minority congressmen have no such sense of obligation. Their relationship to their constituencies is purely local, and therefore each one regards his duties in congress as related only to matters affecting his district, excepting when their common interests are touched by an opportunity to put the majority in a hole. So they have not the training which develops their antagonists at the national forum. Their knowledge of politics does not rise above trading in offices and favors.

The demoralizing result of this lack of a sense of responsibility to the nation for the conduct of government is reflected in the state governments under the rule of the national minority party. This was remarked in the last Kentucky legislature, for instance, which felt under no obligation to the people as a whole to enact laws for the benefit of the common weal. Not once did such an obligation become manifest in committee action, debate on the floor or the policy of either house. Thus the minority party develops national leaders through state politics, with no such training as would enable them when the opportunity comes to assume command of the government and conduct the affairs of the nation in such a manner as to benefit the country and reflect credit on their party. Each year the minority party is out of power, it deteriorates in the character of its leading men. Progressive, aggressive minds incline to the party that is doing things, and this further depletes the resources of the minority and the country loses confidence in it. Is it not possible that this has much to do with undermining antiquated parties, and making necessary the formation of entirely new ones when a crisis arrives in which the dominant political organization is out of sympathy with the times?

STATE PRESS.

Perfectly Tipping.

What tipping people the English are!

By chance a London newspaper floats in this morning and we happen to read the brief advertisements on the liner page. This notice greets our eyes:

WANTED—Attendant for able-bodied invalid in perfect health. 10 Berwick street.

There's optimism for you. You can picture the athletic invalid dashing off those few lines and rushing down to the newspaper office with them. And think of the luxury there is in store for the lucky fellow who will get the job of attending the robust patient.

We come to a medical "ad" which reads as follows:

NOTICE—Mrs. Miller was cured by our pills. Be sure to take the same pills she took. Foster-McClellan Co.

That "ad" proves perfectly satisfactorily that no feat of daring is too great for one Englishman to expect

of another. Great is Britain and greater are her sons!

They say the English have no humor. Read this deliciously funny for sale notice, just as it was clipped from the London paper:

CHEAP—Old violin, nearly new, 10 Morden Grove.

How absurdly incongruous! How beastly droll! A true rollicking clown resides at 10 Morden Grove. Think of the altruistic spirit which prompted him to pay for the privilege of expressing that laughing line!

We come to these "announcements" which testify their own value:

NOTICE—No meeting. All are invited to attend. The Harrington Ethical Society.

ANNOUNCEMENT—Evening anthem, "The Grace of God," solo by choir boys. Monksmouth church.

ANNOUNCEMENT—The pageant of "Darkness and Light" will be given without costume in the Acton Congregational church.

We are a little shocked at the London Congregationalists. Human nature is alike the world 'round, however, and doubtless the pageant will draw better than the meeting of the Harringtons.

But it has been a pleasure to read the liner page of the great metropolitan journal. It bespeaks a wonderful and a bappy people. And, to use our own crude slang, it most everlastingly puts the kibosh on that ally American notion that the English have no sense of the funny.—Louisville Herald.

Stopped It In Time.

It is the doing of things like the passage of the "Ripper Bill" by the Democratic majority in the Kentucky legislature that gives the Republicans an occasional chance to carry Kentucky.—Wayne County Outlook.

Some Stories Around the Town.

Attorney George Oliver, who has been located in Las Cruces, N. M., for several years, left today for Paducah. He will again enter the law practice here with his brother, W. Mike Oliver. Mr. Oliver will reach Paducah next Sunday morning, and his many friends will be glad to see him again. In speaking of a banquet given in Las Cruces in honor of Mr. Oliver a newspaper says: "Last evening the dining room of the Don Bernardo hotel was converted into a banquet hall, patriotically and artistically decorated for the occasion. A huge American flag partially covered one side of the room and streamers of red, white and blue bunting were draped from the corners to the electric light fixtures. Apple and peach blossoms adorned the banquet board and palms and potted plants enhanced the coziness of the dining room. 'The affair was a farewell to Attorney George Oliver, who leaves shortly for Paducah, Ky., to make his future home, and was given by his brothers in the profession as a mark of their appreciation of his friendship and good fellowship, and their decided regret at his departure.'"

Two traveling salesmen, detained in a little village hotel, were introduced to a crazy little billiard table and a set of balls which were of a uniform dirty-gray color. "But how do you tell the red from the white?" asked one of the guests. "Oh," replied the landlord, "you soon get to know them by their shape."—Success.

cell. At any time prior to the final passage of the ordinance ordering the improvement contemplated in the resolution, the owners of more than fifty per cent of the abutting property may file a written petition, designating the material to be used in the construction of the improvement proposed, and thereupon it shall become the duty of the general council to provide that the material designated in the petition be used for making the construction, unless another material is designated by a two-thirds vote of the members elect of each board of the general council. Privilege is also given to file a written protest against the making of any improvement, and unless the ordinance providing for such improvement be passed by two-thirds vote of the members-elect of each board of the general council, the improvements shall not be made. Thus ample opportunity is given by the passage and publication of such a resolution to the property holders abutting the proposed improvements to protest against same, or to protest against any material that is proposed by the council to be used in making such improvement.

Upon the completion of any improvement by the city, it shall become the duty of the city engineer to make a full and correct estimate of the total cost thereof, showing the number of fronting or abutting feet along the line of the improvement, and the cost per abutting foot, together with the names of the abutting property owners, and the number of feet owned by each, and the amount to be paid by each for such improvement. One copy of this estimate shall be delivered to the board of public works, and another to the mayor, who shall transmit such copy to the general council. The board of public works is then required to fix a day for the inspection and reception of the work, and give notice thereof by publication in the official newspaper at least three days before the time and place fixed for the inspection or reception of the work, and this notice shall state the cost per abutting foot of property, as shown by the engineers' estimate. At the time and place fixed in said notice the owners of property liable for the cost of the improvement may appear and be heard before said board, as to whether the work had been done according to contract, and the correct estimate of cost thereof made against the property holder. These protests by property holders must be in writing, filed with the board, and shall be transmitted by the board, together with such recommendations as the board may make, and the report of the board accepting or rejecting the work, to the general council, who shall have power to act finally in this matter.

If the general council shall accept the work done and confirm the engineer's estimate of the cost, then by ordinance, the cost of the work less the cost to be paid by the city, or any street railway company, shall be apportioned equally among the owners of the abutting property along the lines of the improvements, according to the number of abutting feet owned by them respectively, excepting that the entire cost of sidewalks, including intersections, shall be paid for by the property owners, and by such ordinance shall assess and levy a local tax upon the several lots or parcels of abutting property sufficient to pay the cost of such improvement for which it is liable, and thereupon a lien is created upon such property for the payment of the tax levied thereon.

mate shall be delivered to the board of public works, and another to the mayor, who shall transmit such copy to the general council. The board of public works is then required to fix a day for the inspection and reception of the work, and give notice thereof by publication in the official newspaper at least three days before the time and place fixed for the inspection or reception of the work, and this notice shall state the cost per abutting foot of property, as shown by the engineers' estimate. At the time and place fixed in said notice the owners of property liable for the cost of the improvement may appear and be heard before said board, as to whether the work had been done according to contract, and the correct estimate of cost thereof made against the property holder. These protests by property holders must be in writing, filed with the board, and shall be transmitted by the board, together with such recommendations as the board may make, and the report of the board accepting or rejecting the work, to the general council, who shall have power to act finally in this matter.

If the general council shall accept the work done and confirm the engineer's estimate of the cost, then by ordinance, the cost of the work less the cost to be paid by the city, or any street railway company, shall be apportioned equally among the owners of the abutting property along the lines of the improvements, according to the number of abutting feet owned by them respectively, excepting that the entire cost of sidewalks, including intersections, shall be paid for by the property owners, and by such ordinance shall assess and levy a local tax upon the several lots or parcels of abutting property sufficient to pay the cost of such improvement for which it is liable, and thereupon a lien is created upon such property for the payment of the tax levied thereon.

Ten Years to Pay Assessments.

It becomes the privilege also of the general council to provide that any improvement of any street, alley, sewer or sidewalk shall be made on the ten-year plan, and when the tax is levied on the property as hereinbefore described, the city treasurer shall give a notice by one publication in the official newspaper, requiring all persons to pay their special improvement tax within thirty days from the publication of the ordinance, accepting the work and assessing the costs thereof, and the option is given to the property holder to pay such special tax in cash within

In thirty days or to file an agreement in writing that in consideration of the privilege granted to pay said improvement tax in ten installments, he will make no objection to any irregularities or illegality in regard to such improvement, and that he will pay the same in the manner provided by law, ten equal installments, and upon such property owner entering into such agreement, he shall be concluded thereby; he shall not be permitted to set up any defense to the payment of the tax thereafter. This agreement, however, must be filed within thirty days after the passage of the ordinance levying the tax upon the property placed upon the tax duplicate with the other taxes of the persons liable for such special assessment, and are paid at the same time and in the same manner as other city taxes are paid.

Insofar as the property holder is concerned the foregoing are about the only matters of interest contained in these bills, except that by the method prescribed for the making and paying for streets, sidewalks and sewer improvements, the contractor, awarded the contract for the improvement, is relieved of the very expensive and onerous duty of collecting any of the special tax assessments or estimates, and that duty is devolved entirely upon the city's officers, so the contractor and the property holder do not come in contact with each other in so far as the payment of estimates is concerned; furthermore the city is given the right to issue, during the progress of this work, its script or warrants to the extent of 65 per cent of the value of the work done during the progress of work, and at the final completion and acceptance of the work, the interest accrued upon the script or warrants issued, is chargeable as a portion of the cost of the improvement. This enables the city to offer to contractors an attractive contract, and one which will enable him to offer to the city a price very much below the prices formerly paid by the city and the property holder. I think under the present law, whether the ten year installment plan is always adopted or not, the city will be able to get contracts that range in price from not less than twenty-five to up as high as fifty per cent lower than has been formerly

They Got Over It

Says Old Squire Jones to Neighbor Brown, "I'm really tired to go to town. I've such an aching in my bones. My head feels like a hive of bees. I sneeze and cough and blow and wheeze."

Says Neighbor Brown—Now that ain't funny. I feel the same. So take this money. You know the place that has both Bibles and bottles of Rock Rye and Honey.

It stops the cough and cures the wheeze. Quells the bees and kills the sneeze.

IN SOCIAL CIRCLES

Appropriately Christened.
Under a girlish and attractive picture of Miss Nancy Johnson, the sponsor of the American-Hawaiian steamship, Kentuckian, which was launched Saturday at Baltimore, the Louisville Times has the following:
"Miss Johnson, who is a daughter of Congressman Ben Johnson, cracked two bottles of sparkling water on the bow of the new Pacific Maer, Kentuckian, at Baltimore today. The contents of these bottles was not, as of yore, red wine of ancient brew, but pure water, dipped up from the overflowing sprig where Lincoln quenched his thirst as a barefoot boy, and where Jeff Davis quaffed pure, sparkling 'Adam's ale' in the long ago. Miss Johnson broke two bottles on the Kentuckian's bow—one was filled with water from a rill on the Lincoln farm, at Hodgenville, the other from a brook that courses through the hallowed meadows of the native birth of Jefferson Davis, at Fairview, in Christian county."

Pretty Georgia Party of Interest Here

The Thomasville (Ga.) Times says: "One of the most delightful entertainments of the season was the afternoon tea on Wednesday, given by Mrs. John Montgomery, Jr., at the Elks' club, in honor of Misses Corinne Winstead and May Owen, and Mrs. Walter J. Hammond. The lower floor of the attractive club was artistically decorated in quantities of bamboo and violets and jonquills were used in abundance. Mrs. Montgomery was assisted in receiving by Miss Winstead, Mrs. J. F. Mitchell, Miss Owen, Mrs. W. J. Hammond, Miss Margaret Huston, Mrs. Chilton Huston and Miss Rosalie Gr. Mrs. Hansell Watt and Mrs. Fraser Driver met the guests in the hall. Mrs. M. M. Cooper and Mrs. J. L. Turner poured coffee and tea in the dining room, assisted by Miss Mary Jerger, Cornelia Smith, Annie Pringle and Francis Chisholm. The decorations in the dining room were especially attractive. The center piece was violets and daffodils, over which hung a basket of daffodils with showery bouquets of violets. Delicious punch was served in the hall by Mrs. W. H. Rockwell, Miss Watt and Miss Ansel. The cut glass punch bowl was decorated with large bunches of green grapes. Many guests called during the afternoon to enjoy Mrs. Montgomery's hospitality."

Wagner Afternoon

The Matinee Musical club meets this afternoon at the Woman's club house. Following the business meeting at 3 o'clock an attractive Wagner program will be given. Mrs. John Brooks is leader for the afternoon. The program is:

VEIL OF UNSEEN WORLD IS LIFTED

WONDERS SHOWN AT SOCIETY OF MICROSCOPICAL SOCIETY.

Perpetual Dancing in Sapphire Which No Savant Has as Yet Explained.

MOLECULAR MOTION IN JEWEL

Chicago, March 23.—"What the eye does not see"—several hundred various specimens of it—passed in microscopic review before many persons at the Academy of Science building recently.

And the specimens were a motley crew. The infinitesimal things of life were they, but under the enlarging lenses of the microscopes they assumed shapes and colors of compelling beauty or repelling ugliness. The wondrous workings of atomic life in plants, minerals and animals—the things that pass unnoticed by the human throng—were unveiled for the moment from the tiny specks of reality to a pictured greatness, and each in its peculiar way helped to show that there is a reason for all things.

One thing only among all the exhibits from the molecular world failed to prove the cause or reason of its being. And this thing was, perhaps, the most wonderful of all. It was dancing crystals in the heart of a sapphire.

During many thousands of years—for all time, so far as the human knowledge goes—hundreds of minute crystalline particles have been ceaselessly racing through the hollow heart of that sapphire, and no one has been able to say why.

Under the microscope the little band of prisoners, all unseen by the naked eye, are beating over at the walls of the sapphire's heart, as if seeking an escape that will forever be denied them. They never rest, are never still, and they seem for all like the unquiet spirits of the inferno.

Possibly these restless particles represent the perpetual motion so long sought by scientists. And possibly it is something entirely different, for Walter F. Herzberg, who has studied the sapphire for years, says he knows nothing about it. He is certain only, he says, that tomorrow, and next year, and through the coming centuries, that same dancing motion will go on, and will end only when the beautiful sapphire is destroyed and its hollow heart laid open to the light.

But the imprisoned crystals, remarkable as they seemed, held only their separate share of the interest in the annual joint soiree of the State Microscopical Society of Illinois and the Chicago Academy of Science, and many wonders of the hidden world were set out for public view by men of serious mind who had devoted their lives to the business of exposing the secrets of nature and to making the smallest things of life serve the practical use and benefit of mankind.

Simplified Spelling There, Too. Every exhibit was plastered with a technical name beyond the reach of the proletariat. It seemed strange indeed that such a nomenclature should have been heralded in "simplified" spelling. Albert McCulla, who is Secretary of the Microscopical Society, announced the soiree in a printed circular in which were such words as "gly," "cell," "bav," "instructive" and "received."

"The Academy of Science does not stand for the simplified spelling," said Frank C. Baker, curator of the academy. "That is up to Mr. McCulla. None of those circulars was sent from our office. Next year we will have something to say about the matter."

Will Attend Normal School. Miss Alice Byrne, a member of the February division of the 1910 graduating class of the High school, will attend the State normal school at Bowling Green. This will make four girls of the class to enter the school, as Misses Jessie Acker, Mildred Mosier and Kate Steinhilber will attend the same school.

Go With a Rush. The demand for that wonderful Stomach, Liver and Kidney cure, Dr. King's New Life Pills—is astounding. People say they never saw the like. It's because they never fall to cure Sour Stomach, Constipation, Indigestion, Nervousness, Jaundice, Sick Headache, Chills and Malaria. Only 25c. at all druggists.

SOLDIERS BEFORE JURY. Cairo Inhabitants Still Prodding into Mob Disorders.

Cairo, March 23.—Ten members of Company K, 1. N. G. including the non-commissioned officers, were summoned before the special grand jury this afternoon in connection with the investigation of the mob attack upon the Alexander county jail Feb. 18. Constables, police officers, aldermen, the city jailer and some citizens known to have been in public resorts the night before the attack, were called during the day. There is yet no indication that the inquisitors are ready to cease probing into the causes of the recent disorders in Cairo. Witnesses admit the grand jurors are asking some very pointed questions.

In the circuit court today Judge Butler set the docket for the May term and ordered a grand jury to report on the opening day. Judge Duncan will preside, hearing cases on change of venue.

CURIOUS CASE DISMISSED. Bills Does Not Appear Before the Municipal Court.

Kansas City, March 23.—The case growing out of the attack made by J. P. Cuddey, the packer, upon Jerry Lillis, the banker, was dismissed in the municipal court here today by Daniel Howell, assistant city attorney. Mr. Howell made no comment further than to say the case should not have been brought in the municipal court.

CAVARRI

Quickly Cured By a Pleasant Germ-Killing Antiseptic.

This little Hyomel (pronounced Hish-o-mel) inhaler is made of hard rubber and can easily be carried in pocket or purse. It will last a lifetime.

Into this inhaler you pour a few drops of magical Hyomel. This is absorbed by the antiseptic gauze within and now you are ready to breathe it in over the germ-infested membrane where it will speedily begin its work of killing catarth germs. Hyomel is made of Australian eucalyptol combined with other antiseptics and is very pleasant to breathe.

It is guaranteed to cure catarth, bronchitis, sore throat, croup, coughs and colds or money back. It cleans out a stuffed up head in two minutes. Sold by druggists everywhere and by Gilbert's drug store. Complete outfit including inhaler and one bottle of Hyomel, \$1.00. And remember that extra bottles if afterward needed cost only 50 cents.

spelling of the words contained in the announcement of our soiree."

But Mr. McCulla cannot be charged with infection by the bookworm, or lazy bug, for it would have been easier for him to spell the words in the generally accepted way. And the bookworm, by the way, was one of the exhibits. It was anchored to a microscopic slide, and it was possible to see just how ugly the insidious animalcule that gets into human beings and makes them feel that they don't want to work any more.

Small With 21,000 Teeth. Then there was the edible snail with 21,000 teeth. Another snail was called the toxoglossa, or poison tongue, resembling a delicately colored tasseled fan, only the tassels were hairs.

What seemed to be a beautiful, finely woven piece of tapestry, provided, upon reference to the technical name, to be a cross section of a button bush.

A dozen pin point substances of varied and attractive shapes, not unlike the mollusks that are cast ashore on the ocean beach, were defined as fossil diatoms, which are the lowest and meanest things in plant life.

A seeming break in the ice or a bullet hole in the window of a jeweler's shop, was shown to be no more than a cross section of a hazel nut. A combined comb and brush was nothing more than a spider's foot, and what looked like a chicken with all its feathers off, was a flea stripped for action.

And so it went through all the list. Things were not what they seemed.

A Hurry Up Call.

Quick! Mr. Druggist—Quick! A box of Bucklen's Arnica Salve—Here's a quarter—For the love of Moses, hurry! Baby's burned himself, terribly—Johnny cut his foot with the axe—Mamie's scalded—Pa can't walk from the piles—Billie has boils—and my corns ache. She got it and soon cured all the family. It's the greatest healer on earth. Sold by all druggists.

Will Attend Normal School. Miss Alice Byrne, a member of the February division of the 1910 graduating class of the High school, will attend the State normal school at Bowling Green. This will make four girls of the class to enter the school, as Misses Jessie Acker, Mildred Mosier and Kate Steinhilber will attend the same school.

GOLDA SAYLER TO PAY BILLS

IN TRIAL OF HER MOTHER AND HER MILLER.

Has Received \$5,000 On Becoming of Age March 6—Frenchman for Jury Dismissed.

THE PROSECUTOR IS FRENCH.

Watscha, Ill., March 23.—Golda Sayler, daughter of Mrs. Lucy Sayler, is paying for the defense of her mother, grandfather, John C. Grunden and Dr. William Miller, charged with the murder of Banker Sayler. She became of age March 6, and her property amounting to more than \$5,000, held in trust by a guardian, was turned over to her.

The fact that the state's attorney is of French parentage, had much to do with the failure to secure a jury complement today. Many talesmen were Frenchmen from the district in which Pallsard was reared. When he arrived at the court house, they all spoke to Pallsard, who dismissed them with a handshake for fear of adverse comment by the defense.

The defense, nevertheless, challenged every Frenchman peremptorily after the judge overruled the challenges for the cause.

Miller almost again dropped out today. One talesman said angrily that he believed in capital punishment and looked squarely at Miller as he said it. The jurors have been secured. Through the influence of former Judge Harry, of the prosecution, an ardent prohibitionist, the state has peremptorily challenged every talesman interested in the liquor traffic. If the challenge for the case was overruled.

SEES MINISTER FOR LABEL. Candidate Denies He Used Beer to Secure Votes.

Butler, Pa., March 23.—Rev. Claudius Freeman, pastor of the Lutheran church, claims that six local ministers recently charged that "a candidate for school director shipped to Mrs. Pa., the day before the election, a barrel of beer for the purpose of influencing voters."

Freeman declares that he was the candidate meant, and today he had warrants issued charging criminal libel against the six ministers.

Kills the Germs

Disease Germs Are Propagated by Scientists in Salves and Greasy Lotions

When a scientist wants to raise what he calls "a germ culture" he plants the germs in greasy lotions or vaseline, the base of salves. There they grow. Then how in the world can a germ disease like Eczema be cured by a salve or greasy lotion? These things may give temporary relief but in the long run they make a breeding place for the germs. They can't cure the trouble.

ZEMO

The Clean Treatment

is not greasy. It is just a clean, vegetable, liquid remedy for external use. It effects a cure by destroying the germs that cause the disease. Besides which it gives immediate relief from all itching, burning and pain. Splendid for Eczema, Tetter, Dandruff, Pimples, Blackheads and all diseases of the skin and scalp. Ask druggist for booklet "How to Tell Skin Diseases."

MOTHER'S FRIEND

A LINIMENT FOR EXTERNAL USE.

Baby's coming will be a time of rejoicing, and not of apprehension and fear, if Mother's Friend is used by the expectant mother in preparation of the event. This is not a medicine to be taken internally, but a liniment to be applied to the body, to assist nature in the necessary physical changes of the system. Mother's Friend is composed of oils and medicines which prepare the muscles and tendons for the unusual strain, render the ligaments supple and elastic, aids in the expanding of the skin and flesh fibres, and strengthens all the membranes and tissues. It lessens the pain and danger at the crisis, and assures future health to the mother. Mother's Friend is sold at drug stores. Write for our free book, containing valuable information for expectant Mothers.

HOW TO FIND OUT.
Fill a bottle or common glass with
urine and let it stand twenty-four
hours; a sediment or settling usually
indicates an unhealthy condition of
the kidneys. Too frequent desire to
urinate, scanty supply, pain or dull
ache in the back, should also con-
vince you that the kidneys or blad-
der are out of order.

What To Do
There is comfort in the knowledge
so often expressed that Dr. Kilmer's
Swamp-Root, the great kidney, liver
and bladder remedy, fulfills almost
every wish in relieving pain in the
back, kidneys, liver, bladder and
every part of the urinary passage. It
corrects inability to hold urine, and
scalding pain in passing it, or had
effects following use of liquor, wine
or beer, and overcomes that unpleas-
ant necessity of being compelled to
get up many times during the night
to urinate.

The mild, pleasant and extraordi-
nary effect of Swamp-Root is soon
realized. It stands the highest for
its wonderful results in the most dis-
tressing cases. If you need a medi-
cine, you should have the best. Sold
by druggists in fifty-cent and one-
dollar sizes.

You may have a sample bottle of
Swamp-Root, the great kidney reme-
dy, and a book that tells all about
it, both sent absolutely free by mail.
Address, Dr. Kilmer & Co., Bing-
hamton, N. Y. When writing be
sure to mention that you read this
generous offer in the Paducah Daily
Sun. Don't make any mistake, but
remember the name Swamp-Root,
Dr. Kilmer's Swamp-Root, and the
address, Binghamton, N. Y., on every
bottle.

TEACHERS

WATCH EACH OTHER WORK IN
SCHOOL ROOM.

Representatives of High School in
Debate Will Be Chosen Friday
Afternoon.

Teachers of the first and second
grades of the public schools spent
this morning in visiting the room of
Miss Lillie Burdine, of the primary
department of the Lee school, which
is located centrally for all of the
schools. The meeting is for the pur-
pose of observing the work as Super-
intendent J. A. Carnegie believes it
is beneficial for teachers to watch the
methods of other teachers in instruct-
ing pupils. From 11:15 o'clock until
11:45 o'clock the teachers discussed
the work that was done this morning.

This afternoon the regular sessions
of the grades were held at all of the
schools, and this afternoon the teach-
ers will meet with Superintendent
Carnegie and compare notes of
what was observed this morning. The
meetings will be continued at inter-
vals as each teacher will have the
opportunity to compare her method
of teaching with the standard of an-
other instructor.

Debate Representatives.
The two representatives of the
High school to compete in the annual
debate with the Cairo high school
will be selected Friday afternoon.
There are seven applicants for places
on the debating team, and it will be
difficult to pick the best two. The
candidates are: Marvin Sils, Nello
Mitchell, Hey Browning, McElaine
Mitchell, Ralph Kirkland, David Hum-
phreys and Pano King.

PINCHOT ON WAY TO MEET TEDDY

BELIEVE ROOSEVELT CALLED
DEPOSED FORESTER.

Glavis Is Surprised—Says He Knows
Nothing of Pinchot's Plans as
Reported.

HE IS GOING TO COPENHAGEN.

Washington, March 23.—Washing-
ton today woke up to the fact that
Gifford Pinchot, whom Taft recently
caused to be deposed from the posi-
tion of chief forester, is on the
ocean, already four days out, on the
steamer "President Grant," on his
way to meet ex-president Roosevelt,
probably at Naples the following Sat-
urday. The widely current rumor
here is that Pinchot goes to meet
the returning traveler in compliance
with a summons received by cable
last Friday. Nobody in a position to
know would either confirm or deny
this part of the story, but there is
no disposition to deny that Pinchot's
principal errand abroad is to meet
Roosevelt.

It is to be taken for granted, then,
that the ex-president will receive
from the deposed chief forester his
first direct information bearing on
the Ballinger-Pinchot controversy
from any principals in the dispute.

It was rumored here today that
Senator Root had written Roosevelt
at Kharnton on the subject. Root
would not talk about the matter. If
it is true, it might afford at least a
partial reason for the supposed cable-
gram to Pinchot.

Pinchot's friends here scoff at the
suggestion that he would quit the
investigation of the controversy in
which he is so deeply concerned, on
the eve of Secretary Hallinger's
going on the stand in order to seek
uninvited, an interview with the
president. On the other hand, those
who know Roosevelt, say he is too
good a politician not to realize that
to give Pinchot an unsought hearing
before he had an opportunity to dis-
cuss the matter with Taft or some
member of the political family, would
be generally regarded as a direct
slap at the administration he would
naturally feel bound to support.

Thomas R. Shipp, secretary of the
National Conservation association, of
which Pinchot is president, said to-
day that the former forester has gone
to Europe "on a much needed vaca-
tion." He did not attempt to deny
that Pinchot might see the former
chief before he returned to the
United States. Shipp issued the fol-
lowing statement:

"Pinchot sailed for Europe Satur-
day afternoon. He will go to Copen-
hagen, and visit his sister, Lady
Johnston."

Glavis, former chief field agent,
who has been closely associated with
Pinchot in the fight against Ballinger
said that he was surprised to learn
that Pinchot had gone abroad, and
knew nothing of his plans.

ALLDS CASE IS NEAR AN END

BOTH SIDES THEN RESTED, AND
SUMMARY IS BEGUN.

Letter Indicated That Machine Com-
pany Participated in Collusive
Bidding.

ACME ROAD LETTER ADMITTED

Albany, N. Y., March 23.—The
senate settled itself for a long session
in the hope of closing the bribery in-
vestigation so far as the defense of
Senator Jotham P. Allds is concerned.
To enable the attorneys to clear up
the little remaining testimony before
they began their arguments, the com-
mittee of the whole was scheduled to
begin an hour earlier than usual.

Continuation of testimony was
provided for by Senator Conger's at-
torneys insisting upon introducing a let-
ter of the Acme Road Machinery
company, indicating that this concern
participated in collusive bidding.
Allds acted as counsel when the com-
pany was organized and still holds
some of its stock, so that his oppo-
nents contend that he was in a meas-
ure responsible for any improper
business methods proved against the
corporation.

The defense opposed the admission
of this evidence when it was present-
ed earlier in the investigation and the
chair sustained the objection; but
subsequently Chairman Davis said
that he would put the question to the
whole senate for a ruling.

When the investigation reopened
Chairman Davis ruled that the Acme

"I FELT MISERABLE, BUT WAS NOT SICK; TIRED, BUT WAS NOT LAZY; ALL RUN DOWN, YET NOT OVER- WORKED," SAYS MR. T. E. STONE

NOW HE IS' HALE, HEARTY, ACTIVE AND IN ALMOST
PERFECT HEALTH.

The above words expressed the
condition of Mr. T. E. Stone at the
time he commenced using Quaker
Extract and Oil of Balm four weeks
ago. He seemed to have lost all
vitality and ambition, felt more tired
in the morning than when he went to
bed the night before. His tongue
always had a heavy white coating,
causing his taste to be poor and his
breath "bad." After taking Quaker
Extract a few days he expressed dis-
appointment as it did not seem to be
helping him much. He continued
taking it, however, and results were
noticeable. After that he improved
rapidly, and today he said:
"I am a hale, hearty, active man,
thanks to the Quaker remedies."

Such reports as these are coming
in every day. Hardly an hour passes
but some grateful person calls at
McPherson's drug store, 425 Broad-
way, to express thanks for being
cured by Quaker. All persons suf-
fering with rheumatism, catarrh, kid-
ney, liver, bladder, stomach or blood
troubles, should call at once at Mc-
Pherson's drug store. If you cannot
call for the remedies, order them by
mail and on receipt of price they
will be sent you by express, all
charges prepaid.

Quaker Extract, \$1.00; Oil of
Balm, 25c; Soap, 10c.

The wonderful Quaker oil healing
salve can now be obtained in trial
size for 10c, but this offer is open
only for a few days.

REFORM FOR UPPER CHAMBER.

London, March 23.—The house of

the third and last of the resolutions
introduced by Lord Roseberry in
furtherance of his program for the

GROWS HAIR ON BALD HEADS.
A Remedy That Costs Nothing If It
Fails to Do as Claimed.

Resorein is one of the latest and
most effective germ killers discov-
ered by science, and in connection
with Beta Naphthol, a combination is
formed which destroys the germs
which rob the hair of its nutriment,
and thus creates a clean and healthy
condition of the scalp, which pre-
vents the development of new germs.

Pilocarpine is a well known agent
for restoring the hair to its natural
color, where the loss of color has
been due to a disease. Yet it is not
a coloring matter or dye.

The famous Rexall "93" Hair
Tonic is chiefly composed of Resorein,
Beta Naphthol and Pilocarpine,
combined with pure alcohol because
of its cleansing and antiseptic qual-
ities. It makes the scalp healthy,
nourishes the hair, revitalizes the
roots, supplies hair nourishment and
stimulates a new growth.

We want you to try a few bottles
of Rexall "93" Hair Tonic on your
personal guarantee that the trial
will not cost you a penny if it does
not give you absolute satisfaction.
That's proof of our faith in this
remedy and it should indisputably
demonstrate that we know what we
are talking about when we say that
Rexall "93" Hair Tonic will grow
hair on bald heads, except of course,
where baldness has been of such
long duration that the roots of the
hair are entirely dead, the follicles
closed and grown over, and the
scalp is glazed.

Remember, we are basing our
statements upon what has already
been accomplished by the use of
Rexall "93" Hair Tonic, and we have
the right to assume that what it has
done for hundreds of others it will
do for you. In any event you can-
not lose anything by giving it a
trial on our liberal guarantee. Two
sizes, 50 cents and \$1.00. Remem-
ber, you can obtain Rexall Remedies
in Paducah only at our store—the

ANNOUNCEMENT

We beg to announce to our patrons that we now have a large supply of electric irons which we will be glad to let them have on a 30 days free trial. If at the end of this time they do not wish to keep the irons, we will call for them and will make absolutely no charge. If our patrons should desire to keep the irons we shall send them a statement covering their cost—four dollars.

We are satisfied that a great number of our patrons do not really appreciate all the conveniences and the small comparative cost of operating the irons, and so are taking this opportunity of giving them a chance to try them in their own home.

If we were not certain that our customers would be satisfied with these irons we could not afford to put before them such a liberal proposition.

Just step into the office, or call the Commercial Department.

River and Weather.

Gauge at 7 a. m. today read 19 feet, indicating a fall of 2.1 feet since yesterday. Weather partly cloudy; business good.

Driftwood.

The river will continue falling here for several days before coming to a stand. The so-called flood did not result here as predicted.

Last night the James N. Trigg returned from Jopla and left at noon today for Chattanooga, Tenn. Her sister boat, the Chattanooga, is due here Sunday.

The John L. Lowry arrived from Evansville at 9 o'clock last night and left here at 5 o'clock this morning for a return trip.

The towboat Margaret departed yesterday for the Cumberland river for a tow of ties for the Ayer & Lord Co. company.

The towboat L. N. Hook departed this morning for Florence after ties.

The T. H. Davis came up from

Jopla last night and returned this morning with ties.

The Mary Anderson returned to the Caseyville mines today after bringing a tow of coal here.

The Kentucky is due tomorrow night from Riverton, Ala., and makes a return trip Saturday evening.

The Clyde is receiving freight at the wharfboat and leaves at 6 p. m. today for Waterloo, Ala. She returned yesterday afternoon from below, where she unloaded.

The Richardson arrived today from Clarksville and leaves this afternoon for Nashville.

A large trip was enjoyed by the Nashville yesterday. She left for a return trip to Nashville.

There was a change in engineers on the Dick Fowler this morning.

Wash Merdith, of Cincinnati, arrived last night and went on as chief engineer with Bob Suddeth as his second. Suddeth is of Paducah. The old engineers who resigned were: Joe "Kil" Carson, chief, and Ed Foster, assistant.

The gasoline boat Addie is having her broken wheel repaired at Island creek. As soon as she is overhauled she will resume the ferry business between here and Brookport.

The gasoline boat Wild Wood, owned by Capt. John Devers, of Caseyville, went to Metropolis today and is working three miles below there trying to raise a sunken barge. She will soon begin towing corn to Paducah.

CITY JAILER JAMES CLARK GOES TO SISTER'S BEDSIDE

City Jailer James Clark will leave tomorrow morning for St. Louis to attend the bedside of his sister, Mrs. Susie Baker, who is seriously ill as a result of a street car accident there last fall. She is not expected to recover. Mrs. Baker was on board a street car which jumped the track and crashed into another car, going in an opposite direction on a double track. One rib was broken, her shoulder blade crushed and her spinal column injured. Since that time she has been in bad health and will be permanently afflicted if she recovers.

LEROY M'DONALD

OLD VOCAL TEACHER DIES OF THE GRIP.

Miss Hattie Rogers is buried this morning—William Bougeno's funeral.

After being confined to his bed 25 days with the grip at the home of his daughter, Mrs. Thomas Slason, 521 Clark street, Leroy McDonald, 83 years old, at one time a prominent vocal instructor, died at 3:20 o'clock this morning. For the past two years he had been making his home with Mrs. Slason and had not been engaged in any occupation for a number of years on account of his advanced age. He was remarkably active, however.

Mr. McDonald was born in Linn-dale, O., June 28, 1827, and in 1866 he moved to Edgewood, Ill., where he remained until about 15 years ago. Since that time he had been living with his daughters in different sections of the country. Mr. McDonald was a cooper by trade and also taught vocal lessons for a number of years. He was a member of the Baptist church from early life.

Surviving him are one sister, Mrs. Elizabeth Terwilliger, of Bethel, O., one brother, John McDonald, aged 82 years, of Edgewood, Ill., and four daughters and two sons, as follows: Mrs. Slason, of Paducah; Mrs. W. McFarland, of Kansas City, Mo.; Mrs. J. R. Hildebrand, of Leaside, Ill.; and Mrs. M. E. Sells, of Los Angeles, Cal.; Messrs. Jerome McDonald, of Danville, Ill., and Joseph W. McDonald, of Edgewood, Ill.

The body will be sent to Edgewood, Ill., tomorrow morning at 9 o'clock and will be buried there at 4 o'clock tomorrow afternoon. A short service will be conducted here by the Rev. M. E. Dodd, of the First Baptist church. The body will be accompanied by Mr. and Mrs. Slason and his other three daughters, who were at his bedside at his death.

Funeral of Mrs. Rogers.
The funeral of Mrs. Hattie Rogers, of 1735 Harrison street, was conducted at 10 o'clock this morning by the Rev. G. T. Sullivan. Burial was in Oak Grove cemetery. The floral tributes were many and beautiful.

Funeral of Mr. Bougeno.
This afternoon at 2:30 o'clock at the First Baptist church the funeral of Mr. William Bougeno was held. The Rev. M. E. Dodd, the pastor, officiated and the Paducah lodge of Masons, No. 127, had charge of the services at Oak Grove cemetery.

ASSOCIATION

OFFICERS MEET COUNTY CHAIRMEN HERE.

No Statement Given Out About Subject or Result of Conference Here.

Officers of the dark tobacco association held a meeting here with the county chairmen of the association at the Palmer House. Little of the conference was given out, but the officers said they were on a tour over the Black Patch, meeting all the county chairmen and discussing the handling of the 1910 crop.

Present at the meeting last night were: President W. J. Stone, of Kuttawa; J. W. Fisher, of Mayfield, vice-president; Felix G. Ewing, of Glenraven, general manager; John McKeage, of Woodville, chairman of McCracken county; J. W. Smith, of

Revi, chairman of Ballard county; J. W. Daughaday, chairman of Graves county; J. J. White, chairman of Wesley county, Tennessee.

Messrs. Stone, Fisher and Ewing left this morning for Fulton, where they will meet county chairmen today. They will return to Paducah tonight.

Mrs. H. M. Hagan.

Mr. and Mrs. J. F. Jett, of Jefferson street, have gone to Cecelia, to attend the funeral and burial of Mrs. Lott's mother, Mrs. H. M. Hagan, 79 years old. Mrs. Hagan was a respected woman of the vicinity, and was well known. Death was due to infirmities of old age.

Mrs. Stuyvesant Fish, at a luncheon in New York, said with good humored mockery of the suffragettes:

"If they keep on their outlook really will become as naively selfish as Mrs. Dash's."

"Mrs. Dash, as his young wife posed before the mirror in a décollete gown from the dearest shop in the Rue de la Paix—Mr. Dash, regarding the pretty little lady indulgently, said, with a sigh:
